QN900B TV HIGHLIGHTS

QUANTUM MATRIX TECHNOLOGY PRO

The powerful evolution of Neo QLED 8K comes with a backlight dimming technology that precisely controls our proprietary Quantum Mini LEDs. Witness exquisite details expressed in both the darkest black to the purest white with x1.5 more lighting zones than regular Quantum Matrix Technology.

NEURAL QUANTUM PROCESSOR 8K¹

Samsung's unique multi-intelligent processor creates an amazing viewing experience. Brilliant 8K AI Upscaling completed by 20 different neural networks ensures you feel the full power of 8K. Like chefs who cook signature dishes with their expertise, 20 neural networks conduct specific upscaling. Automatically learning scene-by-scene, it optimizes any viewing condition and improves your content.

¹8K AI Upscaling enhances content to near-8K picture quality. Based on laboratory testing. Viewing experience may vary according to types of content and format. 8K AI Upscaling may not apply to PC connection, and certain conditions of Game Mode.

INFINITY SCREEN

Push your viewing experience to the limit with a nearly-invisible bezel. Black edges are shrunk to almost nothing, and an Ultra slim frame removes any distractions so you can get a more immersive viewing experience.

DOLBY ATMOS[®]

Samsung's new top channel speakers deliver a next level Dolby Atmos experience that will immerse you in the action with multi-dimensional sound. With the addition of Samsung's top channel speakers and Dolby Atmos, Neo QLED delivers an incredible audio experience.

PICTURE

8K RESOLUTION²

Feel the power of every frame with 33 million pixels at ultimate clarity with a resolution four times the resolution of 4K.

²8K Resolution is defined as having 7,680 x 4,320 pixels. Native 8K content based on current 8K streaming, connectivity and decoding standard. Future and certain party standards not guaranteed or may require additional device/adaptor purchase.

QUANTUM HDR 64X (48X FOR 65")³

Quantum HDR 64x sets the new standard for incredible detail and brightness. Enjoy rich, accurate colour and deeper contrast with crisp detail. The dynamic tone mapping of HDR10+ shifts colour and contrast scene by scene, allowing you to appreciate even the slightest details.

³The range of Quantum HDR Luminance is based on internal testing standards and subject to change according to viewing conditions or specifications.

SMART CALIBRATION PRO

Meet the innovative, all-in-one image optimization solution that allows you to calibrate your screen with a touch of a

button from your smartphone. It optimizes the picture that is on par with professional calibrators in about 7 to 12 minutes.

100% COLOUR VOLUME WITH QUANTUM DOT⁴

Quantum Dot technology delivers our finest picture yet on a TV. With Colour Volume 100%, Quantum Dot takes light and turns it into breathtaking colour that stays true at any level of brightness.

⁴100% colour volume measured to DCI-P3 standard, certified by VDE.

FILMMAKER MODE

Filmmaker Mode allows home viewers to choose a more cinematic experience, and enjoy film and television shows as they were intended to be seen by the people who made them.

SOUND

OBJECT TRACKING SOUND PRO (OTS PRO)

Immerse yourself deeper into your listening experience from all corners of the TV, including the center, without missing any audio clues.

ACTIVE VOICE AMPLIFIER (AVA)

Newly added real-time noise intelligence. When noise occurs in the living environment, it could disturb viewers. However, AVA helps emphasize voice of the scene so that the TV can deliver clear dialogues to viewers.

ADAPTIVE SOUND+

Adaptive sound has audio scenic intelligence that optimizes sound based on real time scene analysis by content type.

DESIGN

SOLARCELL REMOTE^{TM5}

With a solar panel on its back that you can use for charging, you don't need to use disposable batteries anymore. Also, you can enjoy new smart features such as a built-in microphone with a voice assistant, so it is innovative in more ways than one.

⁵To charge the remote with solar energy, set the TV remote down with the solar panel facing up. Place it in your living room while your lights are turned on, or you can place it near a window where it will soak in natural sunlight.

AMBIENT MODE+⁶

Watch your TV disappear, blending into the walls of your home. It's no mere decoration, because even in ambient mode, your TV is ready to push and pull useful information and entertainment whenever you need it. This content floats on the translucent screen, adjusting with time and light so it always fits in your living space.

⁶Background feature accuracy may vary based on TV location, dependent on wall designs, patterns, and/or colours,

INFINITY ONE DESIGN

Don't compromise elegance for immersive viewing experience. This gorgeous Infinity One Design will take you to the next level with impossibly slim profile.

ATTACHABLE SLIM ONE CONNECT

Regardless of your installation environment, Attachable One Connect helps you to minimize cable clutter.

EXPERIENCE**MOTION XCELERATOR TURBO PRO**

With innovative 4K144hz feature on TV screen, Motion Xcelerator Turbo Pro delivers peak performance, creating consistently crisp visuals and blazing-fast speeds.

FREESYNC PREMIUM PRO⁷

Building on AMD FreeSync™ core technology to reduce stutter and screen tearing, TVs with the AMD FreeSync™ Premium Pro tier provide a fantastic HDR gaming experience. Enjoy a combination of smooth gaming at peak performance, and exceptional high dynamic range visuals while still maintaining low latency for effortlessly smooth gameplay.

⁷Viewing experience may vary according to types of content and graphics processing unit.

SUPER ULTRA WIDE GAME VIEW & GAME BAR 2.0⁸

Bigger and wider TV screens with 21:9 and 32:9 ratios allow you to have more viewing area and give you best gaming experience for winning. Also, display Game Bar allows you to optimize your gameplay with a comprehensive menu, such as screen ratio adjustment, input lag check, FPS, HDR, wireless headset and more.

⁸Super Ultrawide GameView is available for ultra wide supported games and PC games only. Some game titles may not support or be limited in the use of this function. Screen resolution change from external device may be required. Zoom-in mode is available for 21:9, 32:9 resolution.

AUTO LOW LATENCY MODE (ALLM)⁹

Get into the game faster with Auto Low Latency Mode (ALLM), which optimizes your screen so you have more controls with barely noticeable input lag. Experience smooth gaming in its most impressive form without motion blur and judder.

⁹Low input lag is measured based on internal testing conditions and it is subject to change according to game setting or specific conditions.

VIDEO CALL APPLICATIONS¹⁰

Connect your video call applications seamlessly to your screen and spend time with your loved ones on a bigger screen. With wider partnership with Google Duo and Microsoft teams, you can have the option to pick and choose your preferred application. Also, now you can connect your own mobile camera in addition to Samsung Slim Fit cam and Logitech webcam, which makes accessing video calling easier.

¹⁰Additional compatible Samsung Slim Fit cam, compatible Logitech webcam or mobile camera required. Sold separately.

MULTI-VIEW (UP TO 4 VIDEOS)¹¹

Watch what's on your TV and your mobile on the same screen

at the same time. Whether it's live stats for sports or cheat videos for games, simply connect your phone and multi-screen to see both simultaneously. You can also enjoy optimized multi-tasking such as ultrawide game and vertical state, and simply add-up content to watch it all simultaneously or make your own combination.

¹¹Supports Android OS and iOS based smartphone.

TAP VIEW¹²

Mirroring movies or music from your mobile to TV is as simple as a tap. When you tap your TV with your mobile, the TV senses the tap and mirrors it automatically. So it's quick and easy to switch to the TV and continue enjoying your favourite content.

¹²Tap View is available on Samsung Galaxy devices with Android OS 8.1 and higher.

WORKSPACE¹³

Discover more of what you can do. Easily access your PC, Laptop, and mobile seamlessly on your TV.

¹³Compatible with certain PC and mobile devices. Easy Connection application is available on PCs running the Windows 10 OS. Samsung DeX is supported on selected Galaxy, Note, and Tab devices. Most functions of Workspace can be used by connecting the keyboard and mouse to the TV.

SMART HUB¹⁴

Samsung's new Smart Hub puts content curation and discovery front and center, so you spend less time searching and more time streaming movies, games, and shows. With three categories—Media, Game, and Ambient—Samsung optimizes your TV experience based on how you use your TV.

¹⁴Content services and recommendation may vary by regions. Agreement of the Smart Hub Terms and Conditions and Privacy Policy is required before use. Some services are available to watch after registration and subscription.

SMARTTHINGS¹⁵

Let your TV automatically detect and instantly connect all your devices near your TV. SmartThings not only supports mobile/cam/IoT/Smart appliances but also supports legacy appliances. You can control devices directly with remote or voice when watching TV.

¹⁵Available technology, functions and features may vary by country, service provider, network environment or product, and are subject to change without notice. Requires a Wi-Fi, Bluetooth or other wireless network connection and devices registered to SmartThings app. Connected devices are sold separately.

MULTIPLE VOICE ASSISTANT¹⁶

Choose your favourite voice assistant; Bixby or Amazon Alexa. For the first time, all are built into your Samsung TV to provide the optimal entertainment experience and advanced control in your connected home.

¹⁶Samsung may at any time and in its sole discretion without prior warning or notice change the voice assistant services or suspend and/or cease providing the voice assistant services or any part of the voice assistant services. Content, TV services and capabilities pictured may not be available in all regions and territories. Bixby voice commands recognize English (US/UK), French, Spanish, German, Italian, Chinese and Korean. Not all accents, dialects and expressions recognized. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.

SAMSUNG HEALTH¹⁷

New eco on TV that comes with better lives. Master your exercise with camera-powered coaching, keep track of your daily stats synced from Samsung Health application and access content from leading fitness and mindfulness industry partners, all in one place.

¹⁷Smart Trainer support devices may vary by country. Partners and content may vary by region.
